

Game prototype feedback form

Thanks for play testing our game prototype! To help us with our development, please answer these questions. These will help provide us both data and feedback to improve our game for the next version.

* Required

- The *"Insert game name here"* team (PIGDE Group 8)

Survey information

A couple questions to help with our data handling.

1. When are / did you playtest(ing) the game? *

2. What version of the game did you play?

*Please ask someone from the team if you are unsure. **

3. How should we refer to you?

*We may look to quote some of the feedback we get later in our development process. As such, we would need identities to attribute bits of feedback to. Please provide an (appropriate) identifier we can use for this purpose. **

Abstract game ratings

Before we collect some more detailed feedback about our prototype, we'd like to gather some high level feelings about different aspects of our game.

Game rules

The following questions relate to the rules of the game. Please try and answer these questions seperately to your experience with the actual gameplay.

7. How easy did you find it to understand the rules?

*Treat 10 as being able to instantly understand the rules. **

1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	----

8. What rules (if any) did you find difficult to understand?

9. What was the most difficult part of the rules to understand?

Even if you did not have difficulty understanding the rules, think about if there were any points that were less easy.

10. Were there any rules that you felt were redundant or did not serve a purpose? If so, which rules were they?

Gameplay experience

These questions refer to your experience actually playing the game.

11. How did you find the game's pacing?*Is it too slow/ quick? Were there aspects that were better paced than others?*

12. What are your opinions about the length of the game?*Was it too short/long? Were there aspects that felt like they were completed too quickly or dragged on?*

13. With your current impression of the game: how much would you agree that players could create multiple strategies for the game?
Please try and answer this question separate to any opinions you have about the strength of these strategies.

Physical components and pieces

The following questions are for feedback about the physical elements of the game.

20. How distinct would you say the game pieces currently are?

1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	----

21. Were there any pieces specifically that should be more distinct? If so, which one/s?

22. How clear would you say the role of the pieces are?

Think about how easily you can identify what kind of piece (friendly, enemy, neutral, structure, PC, etc.) something is when looking at the board.

1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	----

23. Which pieces, if any, did you struggle to identify?

24. How clear and intuitive was the layout of information on the cards?

1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	----

25. Is there any information on the cards that should be made clearer / more prominent?

26. Were there any game pieces / cards that were difficult to handle? If there were, please indicate if there was a clear cause of this.

27. Are there any pieces that should be replaced with an alternative physical component?*If so, what should we change them to and why?*

Other feedback

28. If there is any other feedback that you would like to give about the game, this is your opportunity!
